

Help Your Community To

# Grow Smart

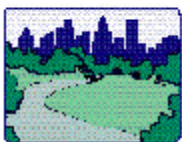

A Slide Show Presentation

# Are You Concerned About...

The safety of your drinking water? Breathing smog from traffic jams?  
The fact that wildlife is disappearing? Farm fields turning into develop-  
ments? Your favorite swimming hole being polluted? Opening your prop-  
erty tax bill? New commercial development sprawling along our roads?

## Learn The Tools For Smart Growth

### Preserve

Water Resources

Wildlife Habitats

Recreational Lands

### Reuse

Abandoned Buildings

Contaminated Sites

# ...Smart Growth Is the Solution

Smart growth protects vital natural resources, provides walkable communities with housing that's close to work, play and shopping, access to public transportation, a wide range of housing choices and vibrant main streets and town centers.

## Learn The Tools For Smart Growth

### Revitalize

Main Streets

Downtowns

### Provide

Varied Methods of  
Transportation

Housing for all Citizens

# EPA Livable Communities Technical Assistance Program
